

Student Name: _____
Period: _____

Date: _____

Discrete Data vs. Continuous Data

Observations are facts gathered by using your 5 senses.

What observations can you make about the following pictures?

Slide 1	
Slide 2	
Slide 3	
Slide 4	
Slide 5	
Slide 6	
Slide 7	

An inference is a conclusion based on observations.

Based on your observations, what inference can you make? What happened?

Now that you have seen the video, would you change your inference?
How would you change it?
