

The Antarctic Food Web Game

Krill

Similar to shrimp

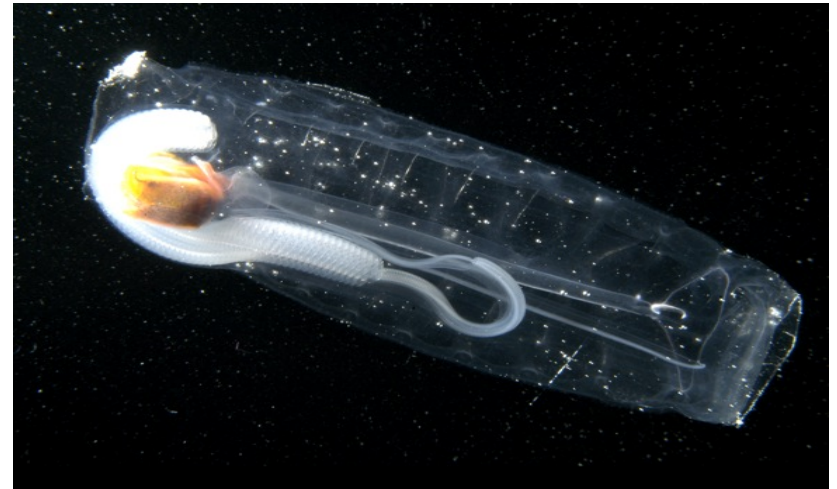

Feed on larger algae that
grow beneath the ice
shelves

The Antarctic Food Web Game

Salps

*Has a nerve chord but its
consistency is similar to a
jellyfish*

Feed on tiny algae in
the open water

Ice Algae

This is a picture of krill feeding on the algae that grows in the ice

Free floating algae

Salps feed on small free floating algae, like cyptophytes
